## NOTES:

### 1. BASIS OF PREPARATION

This unaudited condensed consolidated interim financial information (“Interim Financial Information”) for the six months ended 30 June 2019 has been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34, “Interim financial report” issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”). The Interim Financial Information should be read in conjunction with the annual financial statements for the year ended 31 December 2018, which have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”).

This Interim Financial Information has been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss, financial assets at fair value through other comprehensive income and investment properties, which are carried at fair value.

Except as described below, the accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2018, as described in those annual financial statements.

#### **Amended standards adopted by the Group**

The following new standard, amendments to standards and interpretation are mandatory for first time for the financial year beginning 1 January 2019:

Amendments to HKAS 12, HKAS 23, HKFRS 3 and HKFRS 11	Annual Improvements 2015–2017 Cycle
Amendments to HKFRS 9	Prepayment Features with Negative Compensation
Amendments to HKAS 19	Plan Amendment, Curtailment or Settlement
Amendments to HKAS 28	Long-term Interests in Associates and Joint Ventures
HKFRS 16	Leases
HK(IFRIC)-Int 23	Uncertainty over Income Tax Treatments

The Group changes its accounting policies and made certain adjustment following the adoption of HKFRS 16 “Leases”. The impact of the adoption of the leasing standard and the new accounting policies are disclosed in below. The other standards did not have any impact on the Group’s accounting policies and did not require retrospective adjustments.

Below explains the impact of the adoption of HKFRS 16 “Leases” on the Group’s financial statements and discloses the new accounting policies that have been applied from 1 January 2019.

The Group has adopted HKFRS 16 retrospectively from 1 January 2019, but has not restated comparatives for the 2018 reporting period, as permitted under the specific transitional provisions in the standard. The reclassifications and the adjustments arising from the new leasing rules are therefore recognised in the opening consolidated statement of financial position on 1 January 2019.

#### **(a) Adjustments recognised on the adoption of HKFRS 16**

On adoption of HKFRS 16, the Group recognised lease liabilities in relation to leases which had previously been classified as “operating leases” under the principles of HKAS 17 “Leases”. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee’s incremental borrowing rate as of 1 January 2019. The weighted average lessee’s incremental borrowing rate applied to the lease liabilities on 1 January 2019 was 4.45%.

The table below explains the difference between operating lease commitments disclosed at 31 December 2018 by applying HKAS 17 and lease liabilities recognised at 1 January 2019 by applying HKFRS 16:

	<i>HK\$'000</i>
Operating lease commitments disclosed as at 31 December 2018	25,274
Less: short-term leases recognised on a straight-line basis as expense	<u>(494)</u>
Operating lease liabilities before discounting at 31 December 2018	24,780
Effect from discounting at incremental borrowing rate at 1 January 2019	<u>(1,139)</u>
Lease liabilities recognised as at 1 January 2019	<u><u>23,641</u></u>
Of which are:	
Current lease liabilities	10,969
Non-current lease liabilities	<u>12,672</u>
	<u><u>23,641</u></u>

The associated right-of-use assets were measured on a retrospective basis as if the new rules had always been applied. Right-of-use assets were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the statement of financial position as at 31 December 2018. There were no onerous lease contracts that would have required an adjustment to the right-of-use assets at the date of initial application.

For leasehold land and land use rights previously presented as a separate item and leasehold land included in property, plant and equipment on consolidated statement of financial position are grouped as part of right-of-use assets with effect from 1 January 2019. The recognised right-of-use assets upon the adoption of HKFRS 16 are related to land and buildings.

The change in accounting policy affected the following items in the consolidated statement of financial position on 1 January 2019:

Statement of consolidated financial position (Extract)	31 December 2018 As previously reported <i>HK\$'000</i>	Effect of HKFRS 16 <i>HK\$'000</i>	1 January 2019 As restated <i>HK\$'000</i>

(i) *Impact on segment disclosure*

Adjusted operating profit for the period ended 30 June 2019 and segment assets as at 30 June 2019 all increased as a result of the changes in accounting policies. The following segments were affected by the changes in the accounting policies:

	<b>Increase in adjusted operating profit for the six months ended 30 June 2019 HK\$'000</b>	<b>Increase in segment assets as at 30 June 2019 HK\$'000</b>
EMS division	339	18,982
Property holding division	—	—
	<u>339</u>	<u>18,982</u>

(ii) *Practical expedients applied*

In applying HKFRS 16 for the first time, the Group has used the following practical expedients permitted by the standard:

- the use of a single discount rate to a portfolio of leases with reasonably similar characteristics;
- reliance on previous assessments on whether leases are onerous;
- the accounting for operating leases with a remaining lease term of less than twelve months as at 1 January 2019 as short-term leases;
- the exemption of operating leases for which the underlying assets are of low value;
- the exclusion of initial direct costs for the measurement of the right-of-use asset at the date of initial application; and
- the use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

The Group has also elected not to reassess whether a contract is, or contains a lease at the date of initial application. Instead, for contracts entered into before the transition date the Group relied on its assessment made applying HKAS 17 “Leases” and HK(IFRIC)-4, “Determining whether an Arrangement contains a Lease”.

(b) *The Group’s leasing activities and how these are accounted for*

*As a lessee*

The Group leases various factories, offices and warehouses. Rental contracts are typically made for fixed periods of one to three years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The Group also leases certain land use rights in Mainland China. These land use rights are leased for a period of between ten to fifty years on which plants and buildings of the Group are situated on. The lease agreements do not impose any covenants.

From 1 January 2019, leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability;
- any lease payments made at or before the commencement date less any lease incentives received;
- any initial direct costs; and
- restoration costs.

Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of twelve months or less. Low-value assets comprise IT-equipment and small items of office furniture.

#### *As a lessor*

The Group leases out its investment properties under non-cancellable operating lease arrangements. The lease terms are between one and three years. The Group has classified these leases as operating leases.

The accounting policies applicable to the Group as a lessor in the comparative period are not different from HKFRS 16. The Group is not required to make any adjustments on transition to HKFRS 16 for leases in which it acts as a lessor, except for a sub-lease. When the Group is an intermediate lessor, the sub-lease is classified with reference to the underlying asset.

The Group does not have sub-leases during the financial year of 2018. The Group recognises lease payments received under operating leases as income on a straight-line basis over the lease term as part of "revenue". The Group has accounted for its lease in accordance with HKFRS 16 from the date of initial application.

## Standards issued but not yet applied by the Group

The following new standards and amendments to standards have been issued but are not effective for the financial year beginning 1 January 2019 and have not been early adopted by the Group:

		<b>Effective for annual periods beginning on or after</b>
Amendments to HKFRS 3 (Revised)	Definition of a Business	1 January 2020
Conceptual Framework for Financial Reporting 2018	Revised Conceptual Framework for Financial Reporting	1 January 2020
HKFRS 17	Insurance Contracts	1 January 2021
Amendments to HKFRS 10 and HKAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be determined

The Directors of the Company are in the process of assessing the financial impact of the adoption of the above new standards and amendments to standards. The Directors of the Company will adopt the new standards and amendments to standards when they become effective.

## 2. SEGMENT INFORMATION

The Group's senior executive management is considered as the Chief Operating Decision Maker ("CODM"). The Group is currently organised into two operating divisions:

Electronic Manufacturing Service ("EMS") – manufacture and distribution of electronic products for EMS customers.

Property Holding – development, sale and lease of properties.

The CODM reviews the performance of the Group on a regular basis and reviews the Group's internal reporting in order to assess performance and allocate resources. The CODM assesses the performance of the operating segments based on a measure of segment results. This measurement basis includes profit or loss of the operating segments before other income, other gains – net, finance income, finance costs, share of loss of an associate and income tax expense but excludes corporate and unallocated expenses. Other information provided to CODM is measured in a manner consistent with that in the Interim Financial Information.

### **Code provision A.2.1**

Code provision A.2.1 provides that the roles of chairman and chief executive should be separate and should not be performed by the same individual.

Mr. Wong Chung Mat, Ben is the Group’s Chairman and Chief Executive Officer and has occupied these two positions since February 2003. In allowing the two positions to be occupied by the same person, the Company has considered the following:

- (a) Both positions require in-depth knowledge and considerable experience of the Group’s business. Candidates with the suitable knowledge, experience and leadership are difficult to find both within and outside the Group. If either of the positions is occupied by an unqualified person, the Group’s performance could be gravely compromised.
- (b) The Company believes that the supervision of the Board and its Independent Non-executive Directors can provide an effective check and balance mechanism and ensures that the interests of the shareholders are adequately represented.

### **Code provision A.4.1**

Code provision A.4.1 provides that non-executive directors should be appointed for a specific term, subject to re-election.

None of the existing Independent Non-executive Directors of the Company is appointed for a specific term. However, every Director of the Company is now subject to retirement by rotation and re-election under Bye-law 112 of the Bye-laws of the Company. As such, the Company considers that sufficient measures have been taken to ensure that the Company’s corporate governance practices are no less exacting than those in the CG Code.

### **Code provisions A.5.1 to A.5.4**

Code provisions A.5.1 to A.5.4 provide that a nomination committee should be established with specific terms of reference which should be made available on the websites of the Stock Exchange and the listed issuer, and that sufficient resources should be provided to such committee to perform its duties.

The Company does not have present intention to establish a Nomination Committee in view that the Board itself shall discharge all duties expected to be dealt with by a Nomination Committee. In addition, a Policy and Procedure for Nomination of Directors have been set out in writing and adopted by the Board to serve as a guideline in order to ensure that there is a formal, considered and transparent procedure for the appointment of new Directors with suitable experience and capabilities to maintain and improve the competitiveness of the Company.
